

Are you an artist, a creator, a healing arts practitioner? Looking to be more accomodating? Do you have a home based business or just want something funky for your backyard? This may be what you've been looking for.

The Garden Dome

When you walk into a GeoStudios dome you will be struck by the feeling of calm and the inspiration of a high, domed centre.

By design, a dome is intimate enough for 2 yet big enough to seat 10.

## ODE TO A DOME

I think that I shall ever roam  
To find a poem like a dome.  
A dome whose roundish top is pressed  
Against the west at each sunset;  
A dome of sacred geometry  
Whose angles speak a homily;  
A dome that would in winter snow  
Protect its owners down below;  
And upon whose bosom rain has been  
Keeping dry the dwellers in.  
Poems are made by tiny gnomes,  
Who only want to build your dome.
