

The GeoStudio can serve many types of home-based businesses. Here is a small sampling;

- healing arts therapists
- music teachers, various tutors
- counsellors
- artisans
- quilters
- work from home designers
- one or two person task situations
- any one-on-one client situation

The GeoStudio is a creating space. Put it in your backyard and use it for you and your family for:

- a teen hangout or kids space
- yoga room
- meditation
- mini trampolining
- overnight accommodations
- music room
- painters studio
- or just for a quiet cup of coffee

The GeoStudio is a creating space.
Wanting to cultivate your craft? Let the high ceiling inspire your creativity.

WORK- Whatever your line of business is, if you work from home your space should be quiet, accessible, and inspirational. Something you can feel comfortable in.

-GeoStudios are strong-

Because of their shape geodesic domes have greater snow load capacity and reduced wind noise.

PLAY- Want a space for kids to burn energy? Does your teen need a safe hangout? Looking for an extra space without the costs of renovating?

-GeoStudios are an organic design-

The high domed ceiling creates a natural geometry of rich resonance. Choose your colours to match your house!

CREATE- Want to do your art in a nurturing space? Want a room with a view of your garden?

-GeoStudios are affordable-

Not only are they less than the cost of a house addition but a GeoStudio will add value to your home. If you're in business it will eliminate the cost of office rent and save you time.
